MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: 2004 Engineer of the Year Award Program

1. Again this year, the U.S. Army Corps of Engineers will be recognizing its outstanding professional engineers (P.E or E.I.T), one military and one civilian, in a USACE Engineers of the Year Award Program, with honors provided at a HQUSACE ceremony. Additionally, together with other federal agencies, we will participate in the annual Federal Engineer of the Year Award (FEYA) Program sponsored by the National Society of Professional Engineers (NSPE). This is the twenty-fifth annual NSPE-FEYA program.
2. A HQUSACE panel will select two Corps awardees, one military and one civilian, for the USACE Engineers of the Year Award from the two nominees selected by each MSC and separate office. These awardees will be the Corps nominees for the NSPE-FEYA competition. An NSPE evaluation panel will select the "Federal Engineer of the Year". Individual agency award winners and the "NSPE Federal Engineer of the Year" will be honored at a ceremony to be held on 15 January 2004 at the National Press Club in Washington, D.C.
3. Through these programs you have the opportunity to formally acknowledge the contributions of an outstanding military and civilian engineer from your MSC or separate office. I urge you to take advantage of this opportunity. In the past, we have had an excellent response to producing exceptional candidates for the awards.
4. Your nominees must be registered professional engineers (P.E or E.I.T). Each MSC can provide one military and one civilian engineer nominee. An original and eight copies of the NSPE nomination document must be submitted to HQUSACE (ATTN: CECW-EW) by COB 19 September 2003. To assure equal treatment for all, this deadline date will not be extended. The nomination form (including selection criteria), which applies to both competitions, can be downloaded from the web site: <http://www.nspe.org/peg/2004feya.doc>
5. The HQUSACE POC is Jim Chang, CECW-EW, (202) 761-5904
